DFIN

Prepare for Your IPO With EDGAR® Pro

EDGAR Pro allows you to analyze what your peers and competitors are doing during the lead-up to your IPO. Stay focused on shaping your company's narrative and let the platform do all the digging and tracking of SEC filings for you. Features include:

Comprehensive data

Access all SEC filing documents dating back to 1994, including 8-Ks, 10-Ks, 10-Qs, 13-Ds, 13-Gs and DEF 14s (proxy statements).

Search, filter and alert

- Get notified the moment there's news or changes to the data you are tracking.
- Utilize enhanced text searching in specific sections of filings, including:
  - Business section.
  - Financial statement presentation.
  - Risk factors.
- Access to SEC comment letters.

Custom dashboards

Configure dashboards to easily view deals done by companies in the same business or industry.

Monitor defined peer groups with annual and quarterly filing views.

Easy to use formats

Need to cut and paste from other filings? Access all filings in Word, and print and download data in multiple form types including Excel and PDF.

Comprehensive peer accounting disclosure surveillance

- Track adoption of new FASB rules
- See ASU 606 revenue recognition changes.

Access to DFIN's complete IPO services
