

PRODUCTS & SOLUTIONS | EBREVIA

Intelligent Contract Analytics

eBrevia uses industry-leading artificial intelligence technology to extract data from contracts, bringing unprecedented accuracy and speed to due diligence, lease abstraction and contract analysis.

Extract legal and financial concepts regardless of vocabulary used, no matter how deeply buried.

ACCURATE

Minimize the risk of missing key provisions due to inexperienced or time-pressured reviewers.

FAST

Analyze 50+ documents in less than a minute.

INTUITIVE

Review documents in an easy-to-use interface with extensive workflow features.

INTELLIGENT

Train eBrevia to extract custom, industry-specific provisions in multiple languages.

ACTIONABLE

Deliver actionable intelligence with summaries exported directly to Word, Excel or your database.

MULTIPURPOSE

Use for M&A and corporate diligence, lease abstraction, general contract review and compliance.

SECURE

Protect your data with our bank-grade security, powerful encryption technology and top-tier cloud service providers.

Integrate eBrevia with our Venue® virtual data room or your lease database or contract management system.
