DFIN

Prepare for Your Proxy With EDGAR® Pro

EDGAR Pro is the research and benchmarking platform designed to help you uncover intelligence from SEC filing information. Collect and analyze company and industry information to help supplement your corporate governance and investor relations programs. Features include:

Filing management

Access all SEC filings from 1994 to present for documents such as 8-Ks, 10-Ks, 10-Qs, 13-Ds, 13-Gs and DEF 14As (proxy statements).

Search, filter and alert

Set up email alerts and get notified as soon as peers or competitors file with the SEC. Save alerts for specific sections of filings (including 8-Ks and proxies) to help position yourself in line with them.

Access institutional ownership data

Including:

- Shares held.

- Change in percent of portfolio.

- Market value.

- Buy and sell activity by company insiders.

Custom dashboards

Configure dashboards to easily view key company information. Set up annual and quarterly filing dashboards for defined peer groups.

Easy to use formats

Print and download data in multiple form types including Excel, PDF and Word.

Access to DFIN's end-to-end proxy services

Let us help you **manage your proxy like a pro**, from start to finish. Simplify every stage of the process with the right technology and expertise, backed by a dedicated customer service team.
