**Brisbane Airport
Runway**, matting for the
**2018
Commonwealth
Games** and more

Provided
matting for the
**Stockyard Hill
Wind Farm**
to power 390,000 homes

CHALLENGE

Spending excessive time in reviewing documents and preparing reports

JWA Oilfield's legal team has to regularly review large amounts of lengthy documents including vendor contracts, tender documents, and terms and conditions of purchase orders. Pain points include reading through fine print and identifying contradicting terms across documents.

JWA Oilfield is looking for a solution to help them review documents and prepare reports efficiently - a solution to allow them regain control, and not feel like they are constantly "fighting fires".

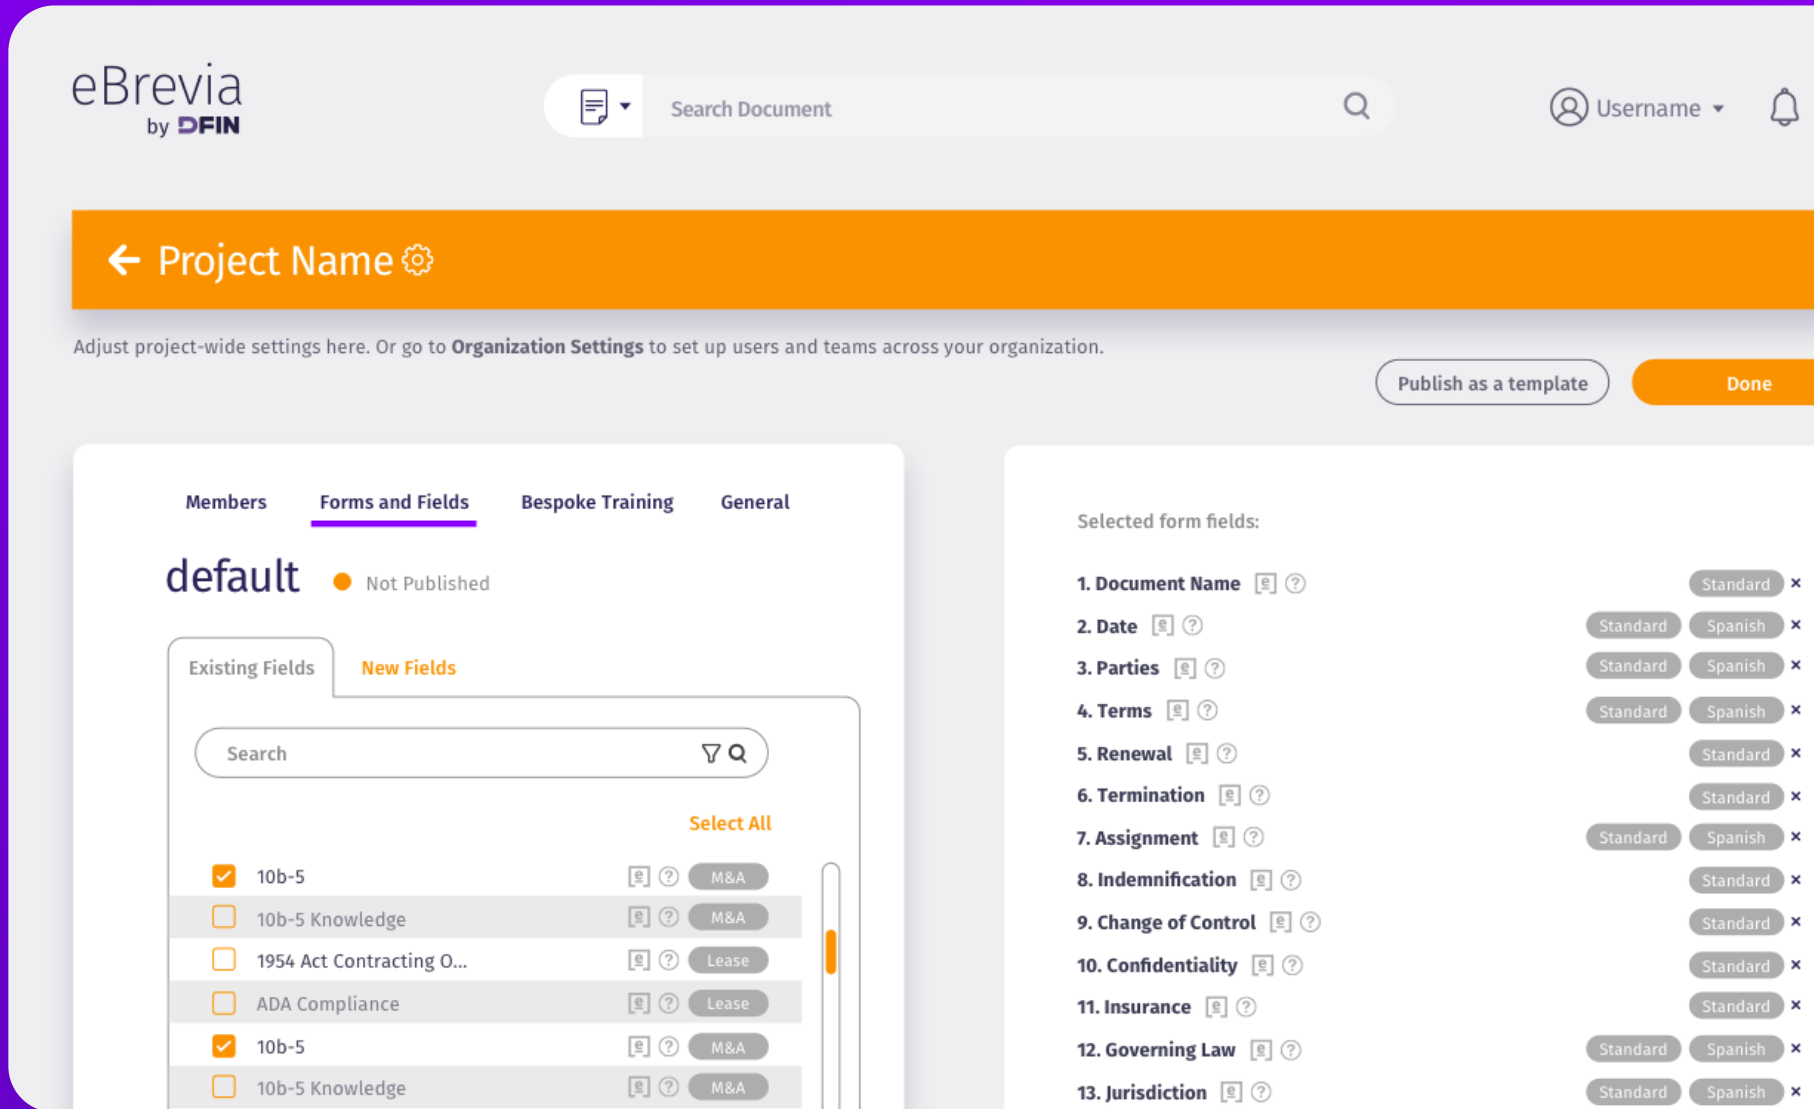

SOLUTION

eBrevia saves time and boosts efficiency with high accuracy

JWA Oilfield uploads documents into eBrevia for the AI engine to conduct a first level review. A document that takes an hour to review can now be reviewed in 5 minutes.

JWA Oilfield also makes use of eBrevia's reporting functions to automatically generate contract summary reports.

TIME SAVING AND ACCURACY

According to JWA Oilfield, a document that generally takes an hour to review can now be reviewed in 5 minutes with a high degree of accuracy.

CUSTOMIZABLE

eBrevia allows users to choose from its library what data points to track in documents. With its powerful machine learning and natural language processing techniques, users can teach eBrevia to learn and extract new data points depending on, organisation or transaction needs.

HIGHEST LEVELS OF SECURITY

Given its involvement in national and large commercial projects, JWA Oilfield regularly handles sensitive information – eBrevia employs bank-grade security and encryption, and offers cloud and on-premise solutions with SOC 2 Type 2 certification.

EASY INTEGRATION WITH OPEN API

eBrevia has integrated with major software products such as DFIN's Venue® Virtual Data Room, iManage, SharePoint, Salesforce and more. Its open API allows users to customize integrations to improve operational efficiency.

“

We chose eBrevia over other vendors due to its quick service response, relatively easy to use interface, and that it has open APIs planned for integrations.

The strength of eBrevia lies in the speed in identifying key points in legal contracts, and is very good at what it does so long the document format has very few formatting variations (such as blocks or tables of small text).

DARRYL HUANG

Administrative Manager, JWA Oilfield Supplies Pty Ltd

A leading AI-powered document review and management solution for the modern enterprise

FAST

Up to 90% faster than manual review with capabilities to analyze 50+ documents within one minute.

ACCURATE

Up to 60% more accurate than manual review.

INTUITIVE

User-friendly and intuitive interface, enhancing your overall document review experience.

AUTOMATED REPORTING FUNCTIONS

Automates tedious workflow with exportable summary reports in Word, Excel, checklist, .csv formats.

CUSTOMIZABLE

100% customization in what data points to track. Users can even train the AI engine to learn and capture new data points.
