

DFIN CASE STUDY

How We Helped FIS Develop an ESG Strategy and Award-winning Report

ESG Solutions

CORPORATE SNAPSHOT

A global leader in financial services technology, FIS (NYSE: FIS) offers a wide range of financial products and services.

More than \$10 trillion moved around the world.

In excess of \$79 billion in transactions processed.

CHALLENGE

How to develop a strategy to produce an award-winning ESG report.

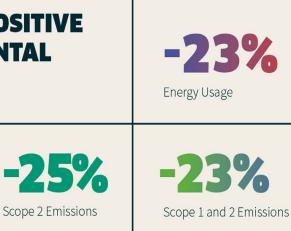

FIS wanted to develop a system for creating an annual ESG report that emphasized the company's sustainability strategy. The report would be used to help the company differentiate itself from competitors, mitigate risk, and streamline operational efficiency. In addition, it would strengthen relationships with customers, partners, employees, shareholders, and other stakeholders.

Producing this document required integrating data from a variety of sources, which meant that the executive team needed buy-in from multiple departments, a game plan that would serve as a model for reporting, and the ability to identify the best internal subject matter experts.

FIS DROVE POSITIVE ENVIRONMENTAL IMPACT

FIS ESTABLISHED ITS FRAMEWORK FOR FINANCIAL INCLUSION

SOLUTIONS AND SERVICES

incorporating principles of financial inclusion into solution design and developing solutions that help our clients achieve their financial inclusion goals.

FINANCIAL INVESTMENTS

supporting fintech startups that are innovating to meet the needs of underserved consumers, businesses and markets.

STRATEGIC PARTNERSHIPS

partnering with clients, government policy maker and non-governmental organizations to advance financial inclusion goals.

PHILANTHROPY ANI VOLUNTEERISM

working with nonprofit and philanthropic organizations to provide financial tools and educational resources to better support underserved communities.

SOLUTION

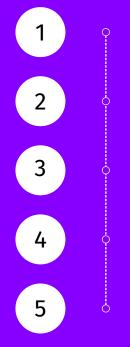

ESG reporting software and advisory services by DFIN streamlines workflow and increases transparency

FIS selected DFIN to develop an ESG strategy and report for stakeholders including employees, customers, and partners. DFIN's five-step ESG methodology brought executives from different departments together to produce a thorough overview of FIS' ESG efforts and publish an award-winning ESG report.

DFIN's 5-step process delivered the following ESG services to FIS:

- 1. Selected relevant material indicators for the financial services industry
- 2. Conducted a peer review to establish important industry specific metrics
- 3. Identified gaps and developed key thematic messages for disclosures
- 4. Drafted content in collaboration with consultants, analysts, and writers
- 5. Designed branded reports in collaboration with creative designers

CUSTOMER QUOTE

66

"DFIN helped us design a powerful ESG reporting program that allows us to continually improve our internal processes and our performance in critical areas year after year. Thanks to DFIN's five-step methodology, we now have an ESG program in place that allows us to easily engage with all key FIS stakeholders, monitor our current and future ESG efforts, and identify areas where improvement is needed. In addition, we were recognized by IR Magazine in 2021 for 'Best ESG Reporting,' in 2021, and we could not have done it without DFIN's support."

ANDREW CIAFARDINI,

Chief Sustainability Officer & Head of Global Public Policy, FIS
