CHALLENGE

Save time and increase reporting efficiencies with a small team

Chemours was experiencing difficulties getting their filing done efficiently and accurately. It was a cumbersome process especially for new members of the reporting team. They also weren't familiar with the steps for XBRL tagging which caused inconsistencies and left room for error.

Chemours needed a reliable software that could save time, help with XBRL tagging and verify data accuracy. The small team needed to feel confident in their SEC filing software.

SOLUTION

ActiveDisclosure is intuitive, efficient and collaborative

Chemours was looking for a trusted, intuitive software with time-saving features to help increase collaboration and provide XBRL tagging support. The team needed a dependable SEC filing software that would help ensure data accuracy. With Excel integration and XBRL tagging, ActiveDisclosure can verify data accuracy and validate the quality of the project. The ability to collaborate with editing and review features helps the team streamline their reporting process.

BOOSTS COLLABORATION

Intuitive tools like track changes, commenting, and version control improve team productivity

INCREASES ACCURACY

100% error-free submissions

DRIVES EFFICIENCIES

Features like advanced editing, team and task notifications, Excel data linking, XBRL tagging and more

In our opinion, the unaudited interim condensed consolidated financial statements contain all adjustments (consisting of only normal recurring adjustments) necessary to present fairly, **T**
