CHALLENGE

Securely facilitate data sharing collaborations worldwide

DC Advisory teams are responsible for some of the most complex cross-border transactions including M&A, debt raisings, restructurings and private capital. Their team of 700 professionals must navigate the intricacies of each deal with agility and collaboration. With multiple parties involved with a significant amount of sensitive information, working within a protected virtual environment is critical.

DC Advisory needed a highly secure, easy-to-use platform to safeguard confidential data shared among multiple parties with time-saving features like redaction that would increase efficiencies and reduce the risk of errors/missing data.

SOLUTION

Venue is purpose-built to deliver secure, self-service VDRs

DC Advisory needed a virtual data room (VDR) for secure data sharing collaborations including those supporting several mergers and acquisitions annually. Venue virtual data rooms offer the security and privacy safeguards you need to protect your information assets. That's why Venue is trusted globally by Fortune 1000 companies, startups, PE firms, investment banks and government agencies.
